Co-Q10 Forte: For your Cellular Energy

Description

Dosage

1 capsule daily with a glass of water during the meal. In case of chemotherapy, medical advice is required before considering coenzyme Q10.

Recommendations

It is advisable not to exceed the recommended daily dose. A dietary supplement is not a substitute for a varied and balanced diet and a healthy lifestyle. A dietary supplement is not a drug. Keep out of reach of children. Inform your doctor and / or pharmacist if medicines are taken simultaneously. For pregnant or nursing women, seek advice from your therapist. Keep away from light and moisture.

Co-Q10 Forte: For Energetic Health

Co-Q10 Forte from Lepivits is a dietary supplement that delivers 200 mg of coenzyme Q10 per capsule in the form of ubiquinone. Coenzyme Q10 plays an essential role in cellular energy metabolism, being a key component in the electron transport chain where it assists in converting nutrients into ATP energy, the form of energy that can be used by cells. With its presence, our cells can function optimally, supporting the energy of the entire body.

The human body is capable of producing coenzyme Q10, but its production may decrease with age or in the presence of certain health conditions, making supplementation beneficial, especially for older populations or those with conditions affecting energy metabolism.

Enhance Your Health with Co-Q10 Forte

Our Co-Q10 Forte embodies efficiency through its many technical advantages, essential for successful supplementation of coenzyme Q10. Here are the highlights of our formulation that distinguish our product in the field of dietary supplements:

- Ubiquinone, the form of Co-Q10 used in our product, ensures effective absorption that meets the needs of the majority of consumers. This form is actively converted into ubiquinol in the body in people with a normal metabolism.
- Ubiquinone guarantees consistent availability and gradual release, allowing for prolonged action throughout the day.
- The high purity of the ubiquinone used in Co-Q10 Forte enhances its effectiveness by allowing the body to use it where it is most needed, especially in the mitochondria to support energy production.
- The composition of our capsules is designed to respect both people and the environment. They are made from pullulan, a natural polysaccharide obtained by fermentation, which offers the advantage of being perfectly suitable for vegetarian diets. Furthermore, the use of rice starch as a natural filler eliminates the need for synthetic or artificial additives, making our Co-Q10 Forte well-tolerated and easy to digest. This conscious approach ensures not only safety but also respects specific dietary needs.

Composition

Nutritional information

NUTRITIONAL INFORMATION	1 CAPSULE	AR%*
Coenzyme Q10	200mg	-

* Recommended Daily Allowance (Directive 2008/100/EC amending -> Decree 08.01.1992)

Composition

Coenzyme Q10 (highly assimilable ubiquinone produced by fermentation of yeasts and bacteria); bulking agent: rice starch, capsule shell: 100% vegetable pullulan.

Characteristic:	Vegan
Form:	Capsule
Free from:	Casein, Gluten, Lactose, Preservatives, Synthetic dyes, Synthetic flavors
