

SOD FORTE - 30 vcaps

LE4798062

Buy this product at <https://www.nutri4all.com/le4798062-sod-forte-30-vcaps>

For optimum cellular protection

Description

Dosage

1 pill with a glass of water served with a meal.

Recommendations

This dietary supplement is not a substitute for a varied and balanced diet and a healthy lifestyle and is not a medicine. Tell your doctor and/or pharmacist if you are taking any medicines at the same time. Contains negligible quantities of iodine. Keep out of reach of children. Store at room temperature in a dry place. Do not exceed the recommended daily dose. Do not dispose of in the natural environment.

Discover SOD FORTE, with enhanced enzymatic activity!

This new form of SOD derives its uniqueness from the microalgae *Tetraselmis chuii*, a natural and powerful source of superoxide dismutase (SOD), boasting an ultra-concentrated enzymatic activity of 30,000 IU/g. This dietary supplement is enhanced by the presence of two other essential enzymes, glutathione peroxidase (GPx) and catalase (CAT).

But why do our cells need these antioxidant enzymes?

The answer lies in the essential role these enzymes play in protecting our cells. Free radicals, generated by factors such as stress, pollution, and our lifestyle, can cause significant damage to our cells, accelerating their aging process. Cellular superoxide dismutase helps neutralize the superoxide anion. The superoxide anion is an energy-rich particle in our body that can cause damage to cells. Fortunately, our body produces a substance called SOD that neutralizes these particles before they can cause harm, thus protecting our cells and our health.

- The uniqueness of SOD FORTE lies in its science-based and innovative approach. Extensive research and clinical studies around TetraSOD® highlight its significant impact on health.
- Optimal Bioavailability: The technique of natural micro-encapsulation plays a crucial role. It carefully encapsulates SOD, allowing for controlled release and maximum absorption. This method preserves the effectiveness of the enzymatic activity.

Composition

Nutritional information

NUTRITIONAL INFORMATION	1 CAPSULE	Ar%*
TetraSOD® (SOD activity : 30.000IU/g)	25mg	-

* Recommended Daily Allowance (Directive 2008/100/EC amending -> Decree 08.01.1992)

Composition

Rice starch; capsule shell / capschaal : 100% vegetable pullulan; TetraSOD® 30,000 IU/g (dried *T. chuii* microalgae).
