Micronutrition before and after a bariatric intervention.

Description

Micronutrition before and after a bariatric intervention

- "All in 1" powder mix (MULTI + CALCIUM + WHEY)
- A calorie poor powder based on whey protein isolate, enhanced with 23 essential vitamins and minerals
- Supports three essential activity domains: energy and vitality - resistance - protection against stress
- Before and after bariatric surgery to replenish any deficiencies of vitamins, minerals and proteins
- Specifically designed for people who had a Gastric Bypass, Sleeve or other bariatric procedures
- According to the latest ASMBS * guidelines
- Vitamin B6, B9 (folate, Metafolin®) and B12 in active form: for direct absorption
- Vitamin K2 helps calcium absorption in the bones and contributes to maintaining strong bones
- Mineral salts with high bioavailability (bisglycinates, citrates, fumarates): optimal absorption
- No side effects

BariNutrics NutriTotal contains vitamins B1, B2, B3, B5 and B12, which support energy levels. Vitamin B6 and B12, together with folate, also contribute to fatigue reduction. In addition, BariNutrics NutriTotal contains vitamins C, D, zinc and selenium, which support our normal immune system function, and vitamin E, which, together with selenium and zinc, help to protect cells from oxidative damage.

Usage

1 serving daily (= 3 measuring scoops). Blend 3 times 1 measuring scoop Nutri Total into 100 ml skimmed milk (morning, noon, evening). If you have an intolerance to milk, you can dissolve it in water.

- Keep out of reach of young children.
- Not recommended for people taking coumarin anticoagulants.
- Suitable for vegetarians. Gluten-free.
- Suitable for breastfeeding women. Suitable for pregnant women.
