Mucopure is a powder that contains digestive enzymes, as well as vitamins and minerals.

Description

The intestinal mucosa has a dual role to play. It absorbs nutrients and acts as a barrier against unwanted substances. That is exactly why the integrity of the intestinal mucosa is so important. If it can no longer perform one of its roles, this leads to numerous health problems, including irritable bowel syndrome, chronic diarrhoea, constipation, flatulence and inflammatory disorders of the intestine.

The enzymes contained in Mucopure are bromelain, papain, trypsin, lipase and catalase.

It also contains vitamins A, B1, B3, B6, B9 and B12, and D and E.

Mucopure is also rich in the minerals calcium, magnesium, selenium and manganese. Finally, it also contains pure micro-algae Spirulina.

INSTRUCTIONS

1st week: 2 teaspoons per day, to be dissolved in some hot water.

From the second week onward: 2 tablespoons per day, to be dissolved in some hot water.

CONTRAINDICATIONS

No adverse effects are known with the use of Mucopure.

Composition

Composition (Ingredients per 10 gram)			
Scientific name	English name	Used form	Amount
